

NEW OFFER!

SOLID FUEL HEATER

- cheap fuel – wood recommended
- surrounding temperature can fall below 0°C
- high air displacement
- very low operating costs
- no need of installing complicated hot air distribution system
- high efficiency
- 100% clean heat
- durable and safe housing with powder coating
- internal burner
- thermostat pump control
- easy to transport
- manual ignition system

Description:		CT 50
Capacity:	kW	50
Air displacement:	m³/h	1 400
Temperature growth:	°C	85
Voltage:	V/Hz	230/50
Electrical power:	kW	0,16
noise level:	dB (A)	65
Flue tube:	mm	150
Weight:	kg	265
Dimensions l x w x ht:	cm	73x138,5x123

To provide the suitable amount of oxygen for combustion ventilation of room is necessary.
